Planning and Deploying System Center 2012 Configuration Manager (MOC 10748)

Überblick

This course describes how to plan and deploy a System Center 2012 Configuration Manager hierarchy, including the central administration site, one or more primary sites and secondary sites, and all associated site systems. This course also covers migration from System Center Configuration Manager 2007. The beta version of this course (10748AB) utilizes RC1 software in the virtual machine for the labs.
