

Veeam Availability Suite v11: Configuration and Management (VASv11CM)

Überblick

Die Veeam® Availability Suite™ v11: Configuration and Management-Schulung ist ein dreitägiger, technischer Deep-Dive-Kurs, der IT-Profis die Fähigkeiten zur Konfiguration, Verwaltung und zum Support einer Veeam Availability Suite v11-Lösung vermittelt. Mit umfangreichen praktischen Übungen versetzt der Kurs Administratoren und Techniker in die Lage, Daten in einer sich ständig verändernden technischen und geschäftlichen Umgebung effektiv zu verwalten und so einen spürbaren Nutzen für Unternehmen in der digitalen Welt zu erzielen.

Dieser Kurs basiert auf der Veeam Availability Suite v11.

Dauer:
3 Tage

Preis:
2.450,00 € (2.915,50 € inkl. MwSt.)

Kursinhalt

Introduction

- Describe RTOs and RPOs, what they mean for your business, how to manage and monitor performance against them
- The 3-2-1 Rule and its importance in formulating a successful backup strategy
- Identify key Veeam Availability Suite components and describe their usage scenarios and deployment types

Building backup capabilities

- Backup methods, the appropriate use cases and impact on underlying file systems
- Create, modify, optimize and delete backup jobs, including Agents and NAS Backup jobs. Explore different tools and methods to maximize environment performance
- Ensure efficiency by being able to select appropriate transport modes while being aware of the impact
- of various backup functions on the infrastructure

Building replication capabilities

- Identify and describe the options available for replication and impacts of using them
- Create and modify replication jobs, outline considerations to ensure success
- Introduce the new Continuous Data Protection (CDP) policy

Secondary backups

- Simple vs. advanced backup copy jobs, how to create and modify them using best practices to ensure efficient recovery
- Discuss using tapes for backups

Advanced repository capabilities

- Ensure repository scalability using a capability such as SOBR on-premises and off-site including integration with cloud storage
- Ensure compatibility with existing deduplication appliances

- Introduce the new hardened repository

Protecting data in the cloud

- Review how Veeam can protect the data of a cloud native application
- Review how Veeam Cloud Connect enables you to take advantage of cloud services built on Veeam
- Review how Veeam can be used to protect your Office 365 data

Restoring from backup

- Ensure you have the confidence to use the correct restore tool at the right time for restoring VMs, bare metal and individual content such as files and folders
- Utilize Secure Restore to prevent the restoration of malware
- Describe how to use Staged Restore to comply with things like General Data Protection Regulation (GDPR) before releasing restores to production
- Identify, describe and utilize the different explores and instant recovery tools and features

Recovery from replica

- Identify and describe in detail, failover features and the appropriate usage
- Develop, prepare and test failover plans to ensure recovery
- Disaster recovery from replica to meet a variety of real-world recovery needs

Testing backup and replication

- Testing backups and replicas to ensure you can recover, what you need, when you need to
- Configure and setup virtual sandbox environments based on backup, replicas and storage snapshots

Veeam Backup Enterprise Manager and Veeam ONE

- Introduce the concept of monitoring your virtual, physical and cloud environments with Veeam Backup Enterprise Manager and Veeam ONE™

Configuration backup

- Locate, migrate or restore backup configuration

Voraussetzungen

- Die Teilnehmer sollten erfahrene Fachleute mit soliden Kenntnissen in den Bereichen Server, Speicher, Netzwerk und Virtualisierung sein
- Um sich auf den Kurs vorzubereiten, sollten Partner die Zertifizierungen Veeam Sales Professional (VMSP) und Veeam Technical Sales Professional (VMTSP) auf der ProPartner-Website absolvieren.
- Kunden sollten die kostenlose Online-Schulung auf www.veeam.com absolvieren.

Zielgruppe

Dieser Kurs ist für jeden geeignet, der für die Konfiguration, das Management oder den Support einer Veeam Availability Suite v11-Umgebung verantwortlich ist.
