

# VMware vSphere: Design and Deploy Fast Track

## Überblick

This extended-hours training course equips you with the knowledge, skills, and abilities to design and deploy a VMware vSphere® 6.0 virtual infrastructure. You follow a proven approach to design and deploy a virtualization solution that is available, scalable, manageable, and secure, and that uses VMware best practices.

This course discusses the benefits and risks of available design alternatives and provides information to support making sound design decisions.

In this course, you practice your design skills by working with peers on a design project. You also deploy components of a completed vSphere design.

This course is based on VMware ESXi® 6.0 and VMware vCenter Server® 6.0.

Dauer:  
**5 Tage**

Preis:  
**4.850,00 € (5.771,50 € inkl. MwSt.)**

## Kursinhalt

Assess the business and application requirements of the current environment  
Understand and apply a framework to a design  
Analyze design choices and best-practice recommendations  
Design and deploy the core management infrastructure for an enterprise  
Design and deploy the virtual data center for an enterprise  
Design and deploy the compute infrastructure for an enterprise  
Design and deploy the storage and networking infrastructures for an enterprise  
Design and deploy virtual machines to run applications in a vSphere infrastructure  
Design and deploy security, management, and recoverability features for an enterprise

## Voraussetzungen

Completion of the following courses:

- VMware vSphere: Install, Configure, Manage [V6.0]

- VMware vSphere: Optimize and Scale [V6.0]

Or equivalent experience with vSphere deployments
